ENVIRON

Behind one of the most successful professional skin care brands in the world today is a doctor who believes that Vitamin A is the starting point for beautiful, radiant skin. Dr Des Fernandes is so convinced of its value that he has made it the cornerstone ingredient in his Environ skin care philosophy. His reasoning is compelling. A Vitamin A deficiency can potentially lead to skin abnormalities like pigmentation irregularities, sun damage and ageing.

Environ's Vitamin STEP-UP System is a scientifically researched and developed product line that works hard to make a wonderful and lasting difference to the appearance of the skin. The line's formulae are entirely based on the need to help replenish all the essential skin nutrients lost by exposure to the sun and environmental factors, while at the same time moisturising the skin's appearance.

[comfort zone]

We consider skin as the mirror of our mental wellbeing, physical state and the daily choices we make. Our mission is to promote a holistic, soulful, healthy and sustainable lifestyle with advanced science-based conscious solutions to visibly improve skin, body and mind. An Award winning Italian skin care brand, [comfort zone] is a sublime experience for senses that incorporates a great passion for beauty. You will have immediate, measurable results with treatments and the luxurious range of homecare products.

Each [comfort zone] treatment has a modern skincare approach that empowers you from inside out. Working on the skin whilst improving the mind, and on the mind to improve the skin. These resurfacing treatments stimulate cellular renewal and illuminate the skin.
